MRN TEAMS WITH LMCO/SNL AND HUBBARD BROADCASTING

(ALBUQUERQUE)---Dr. Al Romig presented a \$5000 check from Lockheed Martin/Sandia National Laboratories Corporation to Dr. John Rasure, CEO of The Mind Research Network Tuesday in Albuquerque. (jpg image attached)

The gift supports MRN's Domenici Discovery Fund for research to find better ways to diagnose and treat mental illness, autism, epilepsy, addiction, and other brain diseases and injury. Dr. Romig is Executive Vice President and Deputy Laboratories Director, and Chief Operating Office at Sandia National Laboratories. He is also a member of the MRN Board of Trustees.

The Hubbard Broadcasting Foundation this week also presented MRN with a gift of \$2000. The foundation supports community nonprofit efforts in regions where Hubbard Media Group owns properties. Hubbard is the parent company of KOB-TV and ReelzChannel in Albuquerque.

"It's gratifying to start the New Year with the continued support of these great corporate citizens," said Lisa Breeden, MRN Development Director. "Both gifts will accelerate MRN research to bring better outcomes to so many of our family and friends facing mental disorders."

About MRN

The Mind Research Network is dedicated to the discovery and advancement of clinical solutions for the prevention, diagnosis and treatment of mental illness and other brain disorders. Founded in 1998 and headquartered in Albuquerque, MRN consists of in-house scientists working in collaboration with Harvard, Yale, MIT, the University of Minnesota, the University of New Mexico and other universities, national laboratories, and research centers across the nation. For more information on the Mind Research Network, visit www.mrn.org.
